### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's attorney, **Mr. Benjamin J. Hauptman** on November 9, 2004.

The application has been amended as follows:

In the Claims:

Claim 12, line 4, delete---**being made from transparent material and---**, page 6, line 2, delete---**fastener---**, insert---**fastening---**, line 3, after "times", insert---, **wherein said tube is transparent in at least said remaining area, whereby said at least one fastening element can be seen through said tube in said remaining area---**.

**Cancel claims 13 and 23-27.**

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Fig. 2 should include a "Prior Art" description label.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: After a review of the prior art of record, it is believed that the present invention is novel and non-obvious wherein no reference discloses a tube for delivering fastening elements having a non-circular inner cross section wherein the non-circular cross section includes a first and second section being contiguous to the first second and extending inwardly from the first section for a length to prevent physical contact between the first section and the head of the fastening element fed along the tube, and wherein the tube is transparent in the first section. References US 5,398,860 and EP 567,240, both to **Edwards** are closest in disclosing a tube with non-circular cross section wherein the heads will contact a portion of the inner diameter, but do not disclose the tube as being transparent, wherein the portion that engages the head prevents the head from damaging the remaining portion and the remaining portion allows the fastening element to be seen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Patrick F. Brinson** whose telephone number is (703) 308-0111. As of November 23, 2004, the telephone # will be (571) 272-4897. The examiner can normally be reached on M-F 7:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Michael Y. Mar** can be reached on (703) 308-2087. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
